DETAILED ACTION

Allowable Subject Matter

1. Claims 49-53,59-66 & 87-90 & 95-110 are allowed.
2. The following is a statement of reasons for the indication of allowable subject matter: the allowability resides in the overall structure of the device as recited by independent claims 49,59 & 87, and at least in part, because claims 49 & 87 recites: "said device comprising a device housing portion with a peripheral device electrical connector therein accessible from the exterior of said housing portion, a cover releasably engaged with said housing portion, and a peripheral device circuit electrically coupled with the peripheral device electrical connector, said device comprising a device said peripheral device circuit having a peripheral device electrical connector fitting accessible from the exterior of said housing portion and coupled with said computer processor via said peripheral circuit for providing data communication with a peripheral device," and claim 59 recites: "a cap releasably engaged with said housing and enclosing a memory coupling with said computerized system." The aforementioned limitations in combination with all remaining limitations of claims 49,59 & 87 are believed to render the claims 49,59 & 87 and all claims dependent thereupon, patentable over the art of record.

US 4718110 to Schaefer is considered a close reference to the instant application. Schaefer disclosed a device (10) having a housing, but is silent as to a peripheral device circuit being electrically coupled with a peripheral device electrical connector having a fitting accessible from an exterior of the said housing portion and a cap releasably engaged with the housing enclosing a memory coupling.

US 5257414 to Trahan is considered the closest reference as Trahan disclosed a device (103) having a housing portion, a peripheral device electrical circuit (201), and a peripheral card (401), but is silent as to the peripheral device circuit (201) being electrically coupled with a peripheral device electrical connector, having a fitting accessible from the exterior of said housing portion and a cap releasably engaged with the housing.

None of the cited references, either alone or in combination, are believed to render the present invention, unpatentable as claimed. Thus, claims 49-53, 59-66 & 87-90 & 95-110 are allowed.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ingrid Wright whose telephone number is (571)272-8392. The examiner can normally be reached on M-F. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jayprakash Gandhi can be reached on (571)272-2800, ext 35.
